“Alacer Gold Call”	Conference ID

If you are unable to participate in the call, a webcast will be archived until January 26, 2017 and a recording of the call will be available on Alacer’s website at www.AlacerGold.com or through replay until Wednesday, December 7, 2016 by using passcode **0857#** and calling:

1-855-669-9658	for U.S. and Canada
800-984-354	for Australia

The corresponding financial statements, management’s discussion and analysis, press release, and presentation will be posted on Alacer’s website and on www.SEDAR.com.

About Alacer

Alacer is a leading intermediate gold mining company, with an 80% interest in the world-class Çöpler Gold Mine in Turkey operated by Anagold Madencilik Sanayi ve Ticaret A.S. (“Anagold”), and the remaining 20% owned by Lidya Madencilik Sanayi ve Ticaret A.S. (“Lidya”). The Corporation’s primary focus is to leverage its cornerstone Çöpler Mine and strong balance sheet to maximize portfolio value, maximize free cash flow, minimize project risk and, therefore, create maximum value for shareholders.

The Çöpler Mine is located in east-central Turkey in the Erzincan Province, approximately 1,100 kilometers southeast from Istanbul and 550 kilometers east from Ankara, Turkey’s capital city.

Alacer is actively pursuing initiatives to enhance value beyond the current mine plan:

- Çöpler Oxide Production Optimization – Expansion of the existing heap leach pad to 58 million tonnes continues to advance. All required land use permits for the Heap Leach Pad Phase 4 expansion have been received. The Corporation continues to evaluate opportunities to extend oxide production beyond the current reserves, including a new heap leach pad site to the west of the Çöpler Mine.
- Çöpler Sulfide Project – The Sulfide Project is under construction with first gold production projected in the third quarter 2018. The Project is expected to deliver long-term growth with robust financial returns and adds over 20 years of production at Çöpler. The Sulfide Project will bring Çöpler's remaining life-of-mine gold production to 4 million ounces at All-in Sustaining Costs¹ averaging \$645 per ounce².
- The Corporation continues to pursue opportunities to further expand its current operating base and to become a sustainable multi-mine producer with a focus on Turkey. The systematic and focused exploration efforts in the Çöpler District, as well as in other regions of Turkey, are progressing. Çakmaktepe Southeast, Çakmaktepe East, Çakmaktepe North and Bayramdere are the main focus in the Çöpler District, and have the potential to add oxide production within the next two years. In the region, the Gediktepe Project (formerly known as the Dursunbey Project) has advanced with a maiden resource and reserve released in third quarter 2016³.

Alacer is a Canadian corporation incorporated in the Yukon Territory with its primary listing on the Toronto Stock Exchange. The Corporation also has a secondary listing on the Australian Securities Exchange where CDIs trade.
