

Supporting Drill Information to Alacer Gold Announcement

This document provides supporting drill collar locations and composite assay results for the Çakmaktepe and Bayramdere drilling program referenced in the announcement.

Drill collar locations are surveyed in UTM Zone 37N, ED50 grid using differential GPS in units of meters.

Significant assay composites are listed for drill holes having ≥ 2.0 meter downhole length averaging ≥ 1.00 g/t Au. Holes containing less than 2.0 meters averaging ≥ 1.0 g/t have been excluded.
