

ALACER GOLD

EXPLORATION MANAGER

Alacer Gold [TSX:ASR, ASX:AQG] was formed following the successful merger of Anatolia Minerals Development, a TSX listed company and Avoca Resources Limited, Australia's third largest ASX listed gold producer. The merger was completed on February 18, 2011.

Through the merger, Alacer Gold has emerged as a leading global intermediate gold producer and explorer with a globally diversified asset portfolio in Australia and Turkey. Alacer Gold is forecasting gold production of 600,000 ounces of gold in CY2013, with an expected increase to 800,000 ounces in CY2015 and current gold reserves of 3.5 million ounces and gold resources approaching 15 million ounces. Alacer Gold is committed to driving growth at Higginsville through exploration with a well supported exploration budget of \$18 million.

As a result of this exciting development and increase in exploration activity, a newly created role has become available for an **Exploration Manager** to join the experienced team at Higginsville Gold Operations. The Project has excellent potential for significant growth through exploration and an extensive portfolio of exploration assets, located in the Eastern Goldfields region of Western Australia. Reporting to the Vice President Exploration (Australia) this key role will be responsible for the delivery and management of the exploration plan, ranging from testing conceptual targets to resource definition programs, whilst driving the exploration plan and providing key input into the long term exploration strategy.

To be considered for this role, you will present the following qualifications and experience:

- Tertiary qualifications in Geology (Honours will be highly regarded)
- Proven team leadership and mentoring skills
- Experience of designing, implementing and managing extensive exploration programmes
- 10-15 years geological experience, with at least 5 years spent in Archean gold exploration
- Experience in designing and managing large exploration budgets
- Exposure to exploration software, ideally MapInfo and Micromine or Vulcan

This is an excellent opportunity for an experienced Exploration Manager to further their career with a mid-tier gold producer with significant projects in Australia and overseas at an exciting time of growth.

This is a FIFO/DIDO role which operates on a flexible roster. The role is available either as a commute ex-Perth or residential in regional centres. An attractive remuneration package on offer for the suitable candidate and excellent great career progression opportunities.

To be considered for this role, please forward your CV and a covering letter in confidence to employment@alacergold.com
